CHAMBER OF COMMERCE.

Population, U. S. Census, 1910—8,051.

Rocky Mount is the fastest growing city in North Carolina, which growth is attributed largely to the fact that it is a center of agricultural, commercial and industrial enterprises in Eastern North Carolina.

The city is situated in Nash and Edgecombe counties, the dividing line between the two counties being in the center of Main street.

In 1890 the town was credited with 850 people; in 1900 the United States census gave 2,938 inhabitants; in 1910, 8,051. The percentage of increase during ten years from 1900 to 1910 being 274. A conservative estimate of the population in 1919, including mill section and suburb, 1½ miles, is 20,125.

In 1908 Rocky Mount possessed no paved streets; there are now 5 miles of streets substantially paved and approximately 22 miles of paved sidewalks.

Fine agricultural country. Excellent farm lands at reasonable prices. Cotton, Corn, Tobacco, Cereals and Vegetables indigenous to soil. Also Grass and Alfalfa can be grown profitably. Fruits and Grapes.

Industrial center of Eastern Carolina. Gateway to the State; 125 miles from Wilmington and Richmond; 250 miles to Baltimore and Charleston; 500 miles to New York (twelve hours' run). Fast train service in all directions.

Among the industries should be mentioned, especially, the shops, yards and offices of the Atlantic Coast Line Railroad Company. Pilot "THE CAR AHEAD"

Ultimate Choice of the Careful Buyer

Pilot motor cars are driven by owners who study automobiles from every angle and who purchase the car that offers them the greatest value.

Unit-by-unit comparison shows Pilot to be far superior to any other car in, or even near, its own price class.

This mechanical superiority, however, is only one of the elements that influences the man who buys a Pilot. His final choice is based on the splendid construction, comfortable riding, economy of operation and upkeep, and the wonderful record of Pilot performance, attested by owners who have driven Pilot cars for years.
